Career Objective

Motivated Computer Engineering student skilled in building responsive, user-friendly websites using HTML, CSS, Bootstrap, JavaScript, and Angular. Detail-oriented with a collaborative mindset, committed to delivering high-quality projects that meet user and client expectations. Seeking a role to further develop and apply my frontend development skills.

Education (June 2026)

Bachelor of Engineering in Computer Engineering

Shoubra, Benha University – *Expected Graduation:*

Projects

1. Office Website Imitation

Technologies: HTML, CSS, Bootstrap, JavaScript

- Created a responsive website mimicking Microsoft Office's official site, achieving 90% visual and functional accuracy.
- Used Bootstrap to achieve 100% responsive compatibility across desktop and mobile devices.

2. Team-Based Travel Blog Website

Technologies: HTML, CSS, Bootstrap, JavaScript, Angular

- Collaborated with a team of 4 to develop a travel blog platform.
- Used Angular to build a dynamic front end.
- Improved project management and teamwork skills by coordinating tasks effectively.

Extracurricular Activities

Shoubra Scouts (2022 – Present)

- Led and participated in over group activities and community service projects, enhancing teamwork, leadership, and problem-solving skills.
- Organized and coordinated outdoor events and promoting teamwork and social responsibility.
- Gained event planning experience.

IEEE Member (2023 – Present)

- Participated in technical workshops and networking events, gaining insights into industry standards and best practices.
- Collaborated on technical projects with IEEE peers, contributing to advancements in technology and engineering knowledge.
- Attended two major conferences, enhancing my technical expertise and understanding of industry trends, with a focus on practical applications.

Life Makers Charity (2018 – Present)

- Managed the Blood Bank initiative, coordinating donation drives and outreach.
- Organized community awareness events on blood donation, encouraging local volunteer participation.
- Contributed to multiple charity projects.

Courses

Angular Frontend Web Development Diploma (Apr 2024 – Oct 2024)

Digital Egypt Pioneers Initiative (DEPI), Ministry of Communications

- Six-month intensive course covering advanced frontend development techniques in Angular.

Web Development Workshop (Jul 2023 – Aug 2023)

American Center Cairo (ACC)

- Two-month course in modern web development practices and responsive design.
-

Training

Leadership Program - National Training Academy (NTA) *(June 2023)*

- Completed the Value Program for Leadership, enhancing leadership and team management skills.
-

Skills

- **Frontend Development:** HTML, CSS, JavaScript, Angular, Bootstrap
- **Other Web Development Languages:** C++, Java
- **Problem-Solving:** Data Structures and Algorithms, Object Oriented Programming
- **Design & Development:** Responsive Web Design, UI/UX Principles
- **Version Control:** Git, GitHub
- **Soft Skills:** Teamwork, Leadership, Project Management
- **Languages:**

Arabic: native

English: very good
